

SUSTAINABLE ENERGY SPECIALIZATION

Enhance your degree by applying Mechanical Engineering principles to solve problems in renewable and sustainable energy.

Students interested in sustainable energy can select a set of thermal science, power conversion and environmental courses to fulfill their math/science electives and technical electives within the BSME degree program. There is also an option to simultaneously complete the Certificate in Engineering Thermal Energy Systems (CETES), which is a formal certificate designed for engineering students interested in problems in energy and sustainability.

RECOMMENDED COURSES

Math and Science Electives (3 Credits)

- ENVIR ST 102 Climate & Climate Change (3)
- ENVIR ST 332 Global Warming: Science & Impacts (3)
- ENVIR ST 349 Climate Change Governance (3)
- AAE 246 Climate Change Economics & Policy (3)
- BSE 367 Renewable Energy Systems (3)

Technical Electives (12 credits)

- CIV ENGR 495 Sustainable & Building Materials (3)
- NE 305 Fundamentals of Nuclear Engineering (3)
- ME 461 Thermal Systems Modeling (3)
- ME 466 Air Pollution Effects, Measurement & Control (3)
- ME 469 Internal Combustion Engines (3)
- ME 471 Gas Turbine Technology (3)
- ME 561 Intermediate Thermodynamics (3)
- ME 564 Heat Transfer (3)
- ME 565 Power Plant Technology (3)
- ME 567 Solar Energy Technology (3)
- ME 569 Applied Combustion (3)
- ME 601 Special Topics: Design of PV Arrays (3)
- ME 601 Special Topics: Energy, Sustainability and Technology (3)
- ME 601 Special Topics: HVAC (3)

*Specializations are not formal, but rather a list of recommended tech elective courses and/or experiences to specialize in a certain area. Specializations do not appear on transcripts.

SUGGESTED **EXTRACURRICULARS**

- Badgerloop
- WiscWind
- Helios
- American Society of Heating, Refrigerating, and Air-Conditioning Engineers (ASHRAE)
- American Society of Mechanical Engineers (ASME)
- Undergraduate Research

CAREER POSSIBILITIES

- Solar Energy
- **Nuclear Engineering**
- **Renewable Energy**
- **Power Generation**
- HVAC&R
- Renewable energy research in academia, national labs, and industry
